THE CHARLEROI MAIL

Snow during night. Partly
mostly cloudy, probably snow.

ESTABLISHED JUNE FIFTH, NINETEEN HUNDRED

VOLUME XXIV—NO. 219.

CHARLEROI, WASHINGTON COUNTY, PENNSYLVANIA, THURSDAY, FEBRUARY 21, 1924.

TWO CENTS

COLD WEATHER CHECKS RIVER RISE; NOW SLOWLY RECEDING

RIVER REACHES A 32 FOOT STAGE

**Crest Reached This Morn-
ing At 4 O'Clock, But the
Rippling Stream, Now a
Raging Torrent Is Now
Receding**

BOATS OUT OF COMMISSION

**No Traffic Since 4 O'Clock Last
Night, But Business Expec-
ted to Resume This Evening—
Damage of Several Thousand
Dollars Done In Valley**

Due to the recent snows and rains, the rippling Monongahela river converged into a raging torrent, the usually placid stream reaching a crest of 32.8 feet at 4 o'clock this morning. However, the river, due to the cold weather, is receding two-tenths of a foot an hour, and boats, put out of commission since 4 o'clock last night, are expected to resume operations this evening.

Damage of several thousand dollars was done in the Monongahela valley. Miles of telephone and telegraph wires in the valley were brought down by the weight of ice forming on them. Poles were pulled down and telephone service throughout the valley was, in many instances, at a standstill. Along the Monongahela-Washington pike more than 10 miles of telephones were down or out of order due to the storm. Fortunately no accidents occurred in this section, albeit the damage done by the elements was heavy. A portion of the high tension wire of the West Penn Power company, which leads from the Monongahela substation farther into the county, was broken down near the Monongahela limits on the Washington pike and some damage was done. Herbert Coulter, aged 13 years, was saved from possible death by Vincent Rhodes, a Monongahela truck driver, when he noticed the boy walking towards the high tension line. The boy was attracted by the intense flame and was approaching the wire intending to watch it closely when Rhodes saw the lad and warned him to stay away.

State Treasurer Snyder Opens His Guns On The Pinchot Program

Press reports, emanating from Harrisburg, are to the effect that an examination of the latest payrolls in the state treasury, shows that the "administration is taking advantage of the abolition of all statutory places under the code and the appointment of high priced officials whose compensation is fixed in the discretion of the administration." State Treasurer Charles Snyder declared in a statement tonight. He said, "the payroll in increasing fast toward the million dollar line over that during the administration of Governor Sprout."

The state treasurer stated in the past the fiscal officers never were allowed more than \$2,000 to \$3,000 a year for expert auditors, but that "every head of department under the administration has 'expert accountants' costing from \$5,000 to \$6,000 per annum."

Mr. Snyder called the appointment of a director of public information an "ingenious appointment made by the administration." He declared the director has sent a letter to newspaper editors of the state "asking them to inform him of any investigations into any county prisons and hospitals and suggests to them that if they don't feel like writing the story in the kind

AN EARLY SPRING? RATTLESNAKES STIRRING

Burgan, North Carolina, February 21—(United Press)—Rattlesnakes are stirring in the local swamps and farmers say that means an early spring, the groundhog, to the contrary, notwithstanding.

BUSINESS LESSON BY RADIO PLAYLET

New York, Feb. 21. — (United Press)—A business lesson in the form of a humorous radio playlet will be broadcasted on March 6 by the National Association of Credit Men from Station WJY.

The feature was first presented before the National Foreign Trade Council convention in New Orleans, and later was performed in Cleveland, Boston, Philadelphia, and New York before important business organizations.

The playlet contrasts ignorant and ill advised methods of interviewing a foreign buyer, with the proper "method of approach." It is called "Simp and Simpatico."

11 YEARS TO PRISON IS COOPER SENTENCE

CHILDREN MAY COAST UNDER COPS' EYES

Children may coast in Fifth street from 6:30 p. m., until the policeman in charge tells them it is "time to go home."

Patrolmen will be stationed at each corner to obviate serious accident or fatality that might occur as a result of coasting.

Charleroi has been fortunate in its coasting accidents thus far this winter, and the local officials are taking every precaution to guard insofar as within their power lie, accidents of a coasting nature.

EUCHRE.
In Rectory of Mother of Sorrows' church this evening under the auspices of the Ladies Altar Society. Tickets 50c. Everyone invited. 21842*

Famous City Prepare For Easter Crowds

Atlantic City, N. J., February 21—(United Press)—The spring festival here will open April 20, Easter Sunday, and it will see a bigger crowd than ever on the board walk to witness the annual fashion parade.

Although the "Playground of America" is thronged with guests the entire year, many of those who sojourn to Florida for the winter return from southern skies with the advent of spring and preparations are being made to handle a monster crowd this year.

One of the big events to be held here early in the season will be a marble shooting tournament from June 1 to June 7. There will be sixty boy and girl champions from as many cities and the beach will constitute the stage for the games. The play rings will be on solid ground, similar to previous tournaments and there will be a repetition of the entertainment for the youngsters.

The Beauty Pageant will be held the latter part of the summer season, and this year four days will be given over to the annual frolic instead of three, as formerly.

Defendant In Libel Suit Taken Without Qualm

New York, Feb. 21—(United Press)—"I Welcome These Court Proceedings," Frank A. Vanderlip said today in reference to a \$600,000 libel suit brought against him by Lewis H. Brush and Ray Morrey, purchasers of the Marlon Star.

Vanderlip is alleged to have wickedly and maliciously charged the plaintiff with bribing the late President Warren G. Harding to fail to perform certain of his official duties as President of the United States.

DAY HERE TO BE INFORMAL

Washington's birthday will not be observed formally here. There will be, doubtless, several informal affairs, the usual social functions, et cetera. The banks of the borough will be closed, and the postoffice will have "closed hours," mention of which is made in another column.

The Charleroi chapter of the Epworth League will hold its second annual George Washington banquet in the Sunday School room of the Methodist Episcopal church. Definite plans for the program have been made and a most enjoyable evening is anticipated. H. S. Hall will officiate as toastmaster and Rev. J. S. Allison, pastor of the North Side Methodist Episcopal church, will be the principal speaker. Mrs. Mary Glunt Nicholson will please the assemblage with several vocal solos, and in addition, the league quartet will contribute a number of its selections. Miss Evelyn Warrenford is on the program for a reading. Geo. H. Hott will lead in the singing. A special menu of edibles has been planned and everything points toward a very successful affair.

GRAND FIVE IN TOURNAMENT

The Charleroi Grand Five will enter in the championship Junior tournament to be held in the McKeesport Y. M. C. A., which will take place the third week in March. Much is expected to the local team in this tournament as they have defeated aggregations from the Monongahela valley that have also entered in the tournament.

The Grand Five will play the Donora Scholastics here this Saturday night at the local High School gym. The Charleroi Newsboys will play the preliminary, to start at 7 o'clock.

Arrangements are being made for the Grand Five to play the Charleroi High School seconds on Tuesday of next week. Orman Morgan, the local tenor, has been chosen as the official for all the Grand Five games.

THE REGISTRATION SHOWS AN INCREASE

According to reports of the registry assessors of the six precincts of the borough following the registration of voters Tuesday and Wednesday of this week, there was a general increase of members of the various political parties, each precinct's report showing a number of additional names.

Harry W. Geho is registry assessor of the First precinct; Paul R. Nutt, of the second; Mrs. Ira Nickerson of the third; Henry Acker, fourth; Samuel Pardo, fifth, and George Hornell of the sixth.

A report of the third precinct is as follows: Republicans, 563; Democrats, 7; making a total of 700 voters.

A report of the First precinct: Republicans, 1008; Democrats, 128; non-choice, 7; Prohibitionists 2; Socialists 4; making a total of 1148.

WANTED
Will pay 5c per pound for clean cotton rags. Leave same at Mail office. 1981

Schedule For Holiday At The Postoffice

Schedule for mail service for the holiday tomorrow as reflects the Charleroi postoffice is as follows:

General delivery and stamp window open from 7 to 10 a. m.

HILLTOP MIDGETS WIN OVER LOCAL FOX CURS

The Hilltop Midgets defeated the Fox Cubs in a fast game by a score of 33-18. Oleksak and Banjo played for the losers.

GIVEN NECKLACE TO PAWN; MAN FAILS

New York, Feb. 21. — (United Press)—James R. Cooper, Seaford, N. Y., was indicted Wednesday for larceny following charges by Mrs. Irene Castle McLaughlin, the dancer, that he failed to make good on a \$7,000 necklace she left with him to be pawned.

Mrs. McLaughlin appeared in person Tuesday to press charges against Cooper, who is also under indictment for stealing a necklace valued at \$10,000 from Mrs. Margaret Huntington. Hewlett's Bay, N. Y.

Baptist General Tract Society Reaches the Centenary Mark—Has An Extensive Influence In All Quarters of the Globe

IT STARTS INAUSPICIOUSLY

Like Ezekiel's River, It Began In the Right Place, In Sanctuary Under the Altar, And Has Carried Life And Light to Barren Areas In the Valley

One hundred years ago on the twenty-sixth day of this month, the Baptist General Tract Society was organized to meet the religious needs of the vast number of people who, unaided, could not help themselves and whose religious condition and that of the children must become less and less hopeful. People were pouring into this country from overseas in ever-increasing numbers and many of them hastening on to the Mississippi valley, or to the West. Settlements were being made by the hundred, which were destitute of religious leaders, and largely destitute of the Bible and good books. Pastors were few and there were no others to gather the people together on the Lord's day, and teach them the word of the way of life. This was practically true of the scattered Baptists, who everywhere were called upon to bear reproach for the sake of their convictions. There was no intention of narrowing the work of evangelism to Baptist folks, but to become more effective in reaching the whole population, and at the same time, give strength and continuity of effort and interest in the communities, and Baptist colporters, and to meet the religious needs by the printed page, and the Bible as well as by the spoken message. That was a small beginning a hundred years ago. Like Ezekiel's river, but like the stream it began in the right place, in the sanctuary under the altar, like the ancient river it was a "growing" stream, wasting not as it carried life and light to the barren areas in the plains below. Tracts were printed, and distribution made by establishing depositories, auxiliaries, and Sabbath schools as distributing centers. The report of the first five years was encouraging. This was the first society of this kind in America and from the first it justified its name. (Continued on page six)

DR. F. C. LAKE MAY ACCEPT A CALL TO AKRON, OHIO

The Akron, O., Journal of Monday, contains an item to the effect that the Rev. Dr. Frederick C. Lake of the First Christian church, Charleroi, Pa., has been given an urgent call to accept the pastorate of the Kenmore Christian church of Akron, Ohio. The article further states that the call will probably be accepted by the Rev. Lake.

Rev. Dr. Lake has been pastor of the First Christian church of Charleroi for the past four years, and is recognized as not only one of the most scholarly, but one of the leading sermonizers among the clergy of the Christian church denomination in this Pittsburgh district.

THE OFFICE CAT
The three stages of matrimony—
Courtship, Courtship and Mar-
riage.

WHEN DOCTORS DIFFER
According to Senator Royal S. Copeland, former health officer of New York City, Americans eat too much and the greatest calamity that can overtake anybody is to become fat. "If a man at fifty weighs 30 pounds too much," he says, "he reduces his chances of long life 50 per cent." People need only about one third of what they now consume instead of so much food, that they need sleep, exercise, fresh air, clean teeth and proper clothing. With this prescription man's average age will be 165 years. But to reach that

city of living.
In other words, we are dying of slow poison deliberately taken, or in shocking heedlessness, three times a day. But, alas, the authorities differ. According to some doctors, many persons show symptoms indicating unduly abundant consumption of food.
say, they are slowly starving themselves by eating too much.
Under conflicting instruction of this nature, what is a poor mortal to do? He can at least follow such practical example—eat as a rule according to appetite, find out by experiment what is good for him and wear it, try to get as much sleep and fresh air as he can, take moderate exercise regularly and beware of over-exercise irregularly. And he will be reasonably safe in concluding that a vigorous life-span of three, four years and ten is far more to be desired than the prolongation of a miserable existence for 165 years.

"PLANNING TO FIGHT."
According to an article on "sabre cutting in South America" translated from the original in the French army daily, La France Militaire and it is "certain that South America is arming" but "for what war?—as it is, as against the United States?" Suspicion and distrust of and ill feeling against the great, all-consuming republic of North America are indicated along with showings of the growth of the armaments of Argentina, Chile and Brazil. "The people over there are planning to attack somebody we read. 'Are they arming against their neighbors? But let what does all this talk about sabre cutting mean? Are they really arming against the United States, and is he talk of friction among neighbors merely skillful camouflage?' Such speculation is modified by more as follows: 'Although the Latin American governments are almost unanimously opposed to the United States, but unanimity is subordinated to their internal discords. What will prevail them to be virtually united against the United States if they are united in regard to practically everything else?'"

Herein, then, is assurance that the suggested military federation against the United States will and can come to nothing—if indeed it has any real promise of actual existence. We read of a congress that could accomplish nothing, the delegates separating "angry with each other and with no sentiment in common except distrust of the United States." As a matter of fact, "Peru, for instance, would rather bow to Washington than to join cause with Chile against the United States. Not that she distrusts and fears far Washington less, but that she hates her neighbor, Chile, more. Until the jealous South American republics can show more ability to get together on a common end, the United States can afford to smile at the supposed mutterings of thunder in that quarter."

Napoleon's Breaches.
"Our hero," said he, "never put on the same breeches two days together." One morning when M. Bayle happened to be with Napoleon while he was dressing, handed the emperor the breeches of the previous day. Napoleon took the breeches, opened the drawer, and, calling a sentinel, threw them out to him, saying: "Here, these are for you."—Revue des Deux Mondes.

Mary Succeeds on Main Street
By LAURA MILLER
© 1923, by Laura Miller
MUNICIPAL HOUSEKEEPING

Of all the part time jobs that have recently developed for women, those connected with "municipal housekeeping" seem to have proved the most interesting. Local political tasks ordinarily pay so little that they can be undertaken only by the woman who has sufficient income to meet her needs, plus some time that she would like to put to service outside her home.
A book which modestly announces itself as the "Who's Who and What's What of the Woman's World," lists Mrs. E. E. Brown's work as member of the town council of Oakdale, La., as a real achievement. To get the background of her work it is said, it's almost necessary to have visited Louisiana; to know the force that old French plus old Southern tradition is still exercising to keep out innovation; and to have felt the power exerted by the dictum, "We want our women to be ladies of the old type."

It is first commendation in Louisiana. When elected in 1919, she was of parliamentary law, public questions, etc., by serving in the State Federation of Women's Clubs. She organized and has for three years been president of the Oakdale Civic League. "Mean while," she kept the devotion of husband, children and neighbors. The young people of Oakdale know that her home is always open for parties. She has time to produce two or three plays a year for charitable purposes that bring all the civic spirits of town and parish together. Withal she is a most perfect hostess of a charming home which is never neglected.

To all this, Mrs. L. E. Fitzgerald of Oakdale who thus describes her neighbor, adds courage. In the city government questions arose which Mrs. Brown could settle neither by fact nor by parliamentary skill. Politics ranged itself on one side. Mrs. Brown's belief in how it ought to be done ranged itself on the other side. Influence sided sometimes with politics. If politics was wrong on the one question, "Will this thing leave a mark for good on the city?" Mrs. Brown consistently voted against politics.

USE BREAD TO CLEAN WATCH
Dough Frees Small Parts of Timepieces of Oil, Chips of Metal and Other Things.

Although the custom is very old, few people realize that bread is extremely useful in the making of watches. From very early times it has been the practice of watchmakers to employ a dough made by kneading fresh bread with water to remove foreign matters from the parts of timepieces.

Curiously enough, there is no known substance which will so completely free the small parts of a watch from oil and chips of metal as bread dough. After rubbing with the dough, the metal is absolutely clean. Every other substance which has been tried tends to leave some of its own fragments on the metal. One of the world's largest factories uses 50 loaves of bread a day for this sole purpose.

On the network of the watch, the certain kinds of spiders weave are of the utmost value. They are used for unscrewing the screw of the micrometer used for determining the positions and movements of the stars, and no substitute for them has yet been found.

The minute strands of this spider's thread are remarkably fine, not exceeding one-fifth to one-seventh of a thousandth of an inch in diameter. In comparison, the thread of a silk worm is thick and clumsy. It is not only the fineness of the spider's thread which makes it so useful, for, in addition, it is amazingly durable. Spider threads can endure great variations in temperature without undergoing any change. In measuring sunspots, when the heat is so great that the lenses are cracked, the spider thread will be unimpaired.—S. Leonard Bastin in St. Nicholas Magazine.

Slight Difference.
The manager of a telephone company sent for a new operator and asked her what sort of work she was doing before she began to preside at a switchboard.

"I sold movie tickets," faltered the new girl.

"I thought so," said the manager. "Now, don't get offended. Just a word of advice. With you say 'Number, please?' Not 'How many?' The phrases are very much alike and yet there's a distinction."

It Was Worth the Money.
A business man received a letter from his son stating that the lad was doing well in school, stood near the head of his class, was popular socially and liked his college. This message he showed to an associate with the remark: "I sent the boy \$50 and I don't regret it."

"I shouldn't think you would," responded his friend warmly. "That letter is full of good news. Many a time I send \$50 just for a hard luck story."

Ticket Was Still Good.
As an express train was going through a station one of the passengers leaned out of the window, overbalanced, and fell out. He fortunately landed on a sandheap, so that he did himself no great injury; but, with torn clothes, he said to a porter:—

"What shall I do?"
"You're all right, mister," said the porter, "your ticket allows you to break your journey."

Judge Makes Erroneous Prediction Regarding Lawyer.

"About one clean shirt is all I thought he would ever wear. He had fallen away to a mere shadow; was as yellow as saffron and often doubled up with pain. Doctors continually gave him morphine and were about to operate for gall stones. May's Wonderful Remedy quickly restored him to perfect health again." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments including appendicitis. One dose will convince or money refunded. At all druggists.

STOMACH TROUBLES

If the stomach and lower parts of the body are out of order, constipation results with loss of appetite, indigestion, biliousness, chronic headache and often severe backache. To cure this condition nature's own remedy has been provided by a combination of roots and herbs. **LEBANON HERB TABLETS**—they contain no harsh purgatives—Sulphate, Calomel, etc., and sufferers are advised to give them a trial at once. A box costs only 85c and is guaranteed safe.

Wedding Rings for Men.

At one time most men wore rings to indicate the state of their affections. An Eighteenth century writer avows: "If a gentleman wants a wife he wears a ring on the first finger of his left hand, and is engaged, he wears it on the second finger, he is married, on the third, and on the fourth if he never intends to be married."

Blooming of Century Plant.

Contrary to popular belief the century plant (Agave Americana) blossoms once in eight years in most cases, and not every hundred years, as many have been led to believe. A central shoot nearly 20 feet high often tears as many as 4,000 blossoms. These growing in greenhouses or under artificial conditions do not bloom so often as those growing naturally.

Summer Hegira of Auto Gypsies Booms Trade on Trail

CHICAGO—Tremendous value in dollars and cents to the small States," said Mr. Hausmann, merchants of the nation of the annual summer caravans of auto gypsies was pointed out by T. L. Hausmann, president of the Temp-lar Motor Car Company of Cleveland, here.
"Laying aside investment in cars and equipment, which is enormous, auto tourists drop millions of dollars into the tills of small merchants all over the United States," said Mr. Hausmann, whose display of Temp-lar "Six-Year-Sixes" centered interest at the Chicago Automobile Show. "According to estimates of the Department of the Interior, these gasoline nomads last summer spent \$6,000,000 in Yellowstone Park, \$2,000,000 in Glacier Park, \$7,000,000 in Yosemite Park, \$2,000,000 at the Grand Canon, and \$5,200,000 in Rocky Mountain Park. Of 133,352 visitors to the Yellowstone, 91,224 traveled by motor car. "Auto camps in practically every town on the beaten trails are not due so much to a spirit of hospitality as to the value of tourist cash trade. To hundreds of towns the tourists mean from several hundred to several thousand dollars of business. During the summer city of 5,000 motor tourists every night last summer, most of whom bought supplies from local merchants.
"Moreover, auto tourists have been more largely responsible than any other single factor in our national economies in getting good roads for the nation. State and federal governments have invested and are still investing millions of dollars in building a network of fine highways throughout the country to facilitate tourist travel. "The great American habit of cross-country touring is giving automobile manufacturing a dominant note in stronger, better cars. The new Temp-lar is built to give 100,000 miles of road service and carries a one-year guarantee with additional guarantees of 20,000 miles on engine and axles."

A Business Story

Rich in meaning to every motor car buver
How Studebaker reached the heights

THE story of Studebaker has been told by many men in many ways. Now let us tell it to you.
Studebaker growth has in late years been Motorodom's sensation. Sales have mounted until last year 145,000 buyers of quality cars selected Studebakers. They paid over \$200,000,000 for them.
All must realize that a new situation has arisen in high-grade cars. You who are interested should now analyze the reasons.
What others say—not what you say—determines your place in the long run. In every field of endeavor one must accept that fact.
We had the money, the plants, the prestige. We had the incentive of Studebaker traditions. In time we secured the men.
We told those men to build for us the surest in fine motor cars, regardless of all costs. We pledged them our good faith and our resources.

The cost was \$50,000,000
We had the new factories—modern plants. We fitted them with new equipment—12,500 up-to-date machines.

Find Out Why
People paid over \$200,000,000 last year for Studebaker cars.
The result is now a demand for 150,000 per year.
Over \$50,000,000 in modern plants and equipment to build the finest of fine cars.
One of these cars, built in 1918, has run 475,000 miles. That means 80 years of ordinary service. In December this car made the trip from coast to coast.

That's the whole story
That's about the whole story. We have followed the never-changing Studebaker principles. We gave to our buyers the utmost—values they could not match. Then they turned by tens of thousands to Studebaker cars.

Over 750,000 of those cars
have gone out. Their performance has developed a demand for 150,000 per year.
Every increase in sales brought a lowered cost, which we promptly gave our buyers. Today these fine cars are offering values which no rival can approach. They have made us the world's largest builders of quality cars.

We deserve a hearing
Now we deserve a hearing. All who consider a car at \$1,000 or over should learn what Studebaker offers. That in fairness to yourself and us. Check one by one the advantages we offer. You'll find them by the score.

Remember that 145,000 who did
that last year chose a Studebaker car. There are nine chances in ten that you'll do it.

Consider our record, our accom-
plishments, our policies and principles. Consider that we have \$90,000,000 at stake on satisfying men like you. Don't buy a car in this high-grade class without seeing what we give.

We established a Department of
Methods and Standards, to fix for every Studebaker detail the maximum of quality.

We created a Bureau of Research
and Experiment, employing 125 skilled men. They make 500,000 tests per year to maintain our supremacy.

They fixed countless standards,
including 35 separate formulas for steels. Then on the most important steels we offered makers a bonus of

ROWING CHAMPION

During the summer W. E. Garrett Gilmore is champion singles sculler of the world, having won the title from Walter Hoover some time ago, but during the winter when the water is frozen he is a real estate operator in Philadelphia. Gilmore will probably be chosen as a candidate to represent the United States in the Olympic games.

CURED OF ECZEMA

I Am Often Laughed At

for being such a strong advocate of San Cura Ointment. "I had doctored four years before getting San Cura Ointment and Soap and was suffering intensely at the time I started to use them. In a few moments I was very much relieved. I continued using them and was completely cured of Eczema. I cannot get along without either San Cura Soap or Ointment. They are good for burns or sores of any kind."—Mrs. Sara R. Byerly, Greensburg, Pa. San Cura Ointment relieves itching skin, old running and fever sores, cuts, burns, bruises, boils, piles, chilblains, catarrh and chapped skin and Sunburn. 30c and 60c. San Cura Soap is fine for skin eruptions and for babies' tender skin. 25c per cake at Hennings' Drug Store.

HUSBAND SAID WHY NOT TRY IT

Wife Said She Would. Result, Lydia E. Pinkham's Vegetable Compound Made Her Well and Strong

East Hardwick, Vt.—"Last winter I was not able to do any work at all. I had backache, headache, side ache, and was sick all the time for six months. We read about Lydia E. Pinkham's Vegetable Compound in the newspapers, and my husband said to me, 'Why don't you try it?' So I said I would, and he went and got me a dozen bottles. It has done me more good than I can ever tell, and my friends say, 'What have you done to yourself?' You look so well. I tell them it is the Vegetable Compound that makes me so well and strong. There is no use to suffer with backache and pains. I will tell every one what it has done for me."—Mrs. Fred. Ennis, Route No. 2, East Hardwick, Vermont.

Housewives make a great mistake in allowing themselves to become so ill that it is well-nigh impossible for them to attend to their household duties. In a recent country-wide canvass of purchasers of Lydia E. Pinkham's Vegetable Compound, 98 out of every 100 report they were benefited by its use. For sale by druggists everywhere.

RADIO SUCCEEDS IN LOCATING THIEVES

Yesterday Chief of Police George B. Haines of Washington resorted to the use of radio in an effort to apprehend three young men who fled from the county seat in this blizzard of Tuesday night in a stolen automobile, after it is alleged they had broken into the store of Ginsberg Bros., Washington, and stolen merchandise valued at \$300.

The men believed to have been involved in the robbery of the store and the theft of the automobile were, the county minions say, Edward Seibert, Homer Day, and James Townsend, all about 25 years old, and well-known in the county seat.

Shortly before noon today, Richard Brown of Monessen, who has a large receiving and sending apparatus, received a message broadcasted through the West Penn Power Company, Connellsville, to the effect that young men, suspected of being the thieves, had been apprehended in that city; that the police of Connellsville had confiscated and were holding an Essex car, bearing license No. 58,065; and that with the car a portion of the loot alleged taken from the store in reference was ensconced, as were athletic goods. Mr. Brown was instructed by the authorities of Connellsville to notify the Washington and Pittsburgh authorities of the capture.

LOCAL BAPTISTS TO OBSERVE NATAL DAY

(Continued from First Page)
self as it became a verifying force throughout the churches. As the work was enlarging at home, it attained even more remarkable increase on foreign soil. In Germany, Sweden, Holland, and other countries the call came for help, until in 1840 the name of the society was changed to the American Baptist Publication Society, and its constitution amended to include colportage work. From that time the Society took on new life. Horses and wagons were used by the colporters to distribute the literature, then came the consecrated Ford, then the Chapel car on the railroad of which there are eight in this country. The Chapel car is all its name implies, a regular church and parsonage combined, and is as well equipped as a Pullman, with every convenience for the missionary and his wife. The Chapel is furnished with a fine handsome brass lectern, and Estey organ, and will accommodate about one hundred and twenty-five people. Now, they have the Gospelship which goes to all parts of the globe, taking supplies, and colporters to the needy.

Next Sunday in the First Baptist church, the local society will celebrate the One Hundredth Anniversary of the American Baptist Publication Society.

Hand Organ Monkeys Are Ancient. The Gueon, a monkey which is the companion of Italians who roam the streets with hand organs, is said to be of the species from which the simians derived their knowledge of the human tribes because their features are shown on the monuments of old Egypt.

River Changes Course. A small tract of land near Bransville, Ind., lying north of the Ohio river, belongs to Kentucky. As a result of a change in the course of the Ohio river the boundary marker between Indiana and Kentucky is on the north side.

A Fellow-Feeling. Mother—"Did you kill the rooster for tomorrow's dinner?" Son John—"No, ma; I went out there, but I thought it would be better if the poor fellow got a good night's rest first, 'cause he's got such a hard day before him tomorrow."

Vicarious Piety. Husband (donning golf rig)—"Aren't you going to church this morning?" Wife—"No; I'm not feeling well." Husband—"Then call a messenger boy and send him. The family must be represented."—Boston Transcript.

Seven Saints. The seven champions of Christendom were St. George for England, St. Andrew for Scotland, St. Patrick for Ireland, St. David for Wales, St. Denis for France, St. James for Spain and St. Anthony for Italy.

Preparing for Action. "That rather elegant citizen says he has thrown his hat in the ring." "He'll have to go farther than that," remarked Senator Sorghum, "and throw his kid gloves and cane into the ash barrel."

Fighting the Gypsy Moth. Natural enemy parasites of the gypsy moth, received from Europe and Japan, are being raised by the Department of Agriculture to stop the spread of that damaging pest.

He Would Dare Say. Prisoner—"But I would rather tell my own story. Don't you think it would be believed?" Solicitor—"I dare say it would. It is the sort of story that carries conviction with it."

CHRISTIAN CHURCH HAS SIX MISSIONARIES THERE

Rev. Dr. Frederick C. Lake of the First Christian church this morning said that the Christian church has six missionaries in the field, one of the number from Bethany, Pa., in the territory as given in the dispatch from Pekin yesterday, in which it was stated that "large forces of Thibetan bandits under the Nauka Lama have stormed Batang, murdering petty district officials and threatening the foreign population." The Christian church is the only religious denomination having missionaries in this territory.

They Can. What impressionable people call sentiment and clamor for, the stolid harshly call "bunk." Both can go too far.

Some Arts. The art of talking is great; the art of listening is greater; the art of saying something is greatest.

For Auld Lang Syne. First Barber—"Been busy this morning?" Second—"No, just scrapin' an acquaintance."

Love and Suspicion. Water will not extinguish the spark of love—and it takes something stronger to scent the breath of suspicion.

Different Now. Love used to sit in bay windows and write twenty-page letters. Now it uses the telephone.

IF MOTHERS ONLY KNEW

During these days when many children are complaining of Headache, Feverishness, Stomach Troubles and Irregular Bowels and take cold easily.
